## Welcome our to Site

### What Web Consulting brings

Web Consulting brings passion about web design (i.e. mocking up designs and hand-coding websites to final production) I also have an equal passion for internet marketing, optimizing websites for search engines, writing/blogging to create content for the search engines, interacting with the social community, creating/publishing videos, etc. I love doing this because it's a part of the job. It's added value to my customer or employer. These are techniques and tools that help build trust, grow incoming links and create brand awareness.
